Courses and Training Materials

The following are a curated list of available free courses and training materials on digital accessibility. We have excluded other courses that have a fee, and more technical ones based on web development.

- Accessibility Fundamentals Overview - W3C
- Digital Accessibility Foundations - W3C
- Digital accessibility: the foundations - Jisc (free for members otherwise paid)
- Accessible Books Consortium Course on Accessible Publishing Concepts – DAISY Learning

- Accessibility Training Overview - Section508.gov
- Accessibility fundamentals - Microsoft
- Accessibility 101 – Accessible IT Group @ University of Illinois
- Introducing the Leader's Guide to Accessibility – Accessibility in Government (gov.uk)
- DIAMAS - Equity, diversity, inclusion and belonging (includes accessibility)
- VPAT Training - Information Technology Industry Council
- Accessibility Maze - Toronto Metropolitan University
- Digital Accessibility for Academic Libraries: Optimising Primo E - The Open University Library
- From Adobe InDesign to PDFs - European Union Publications (youtube)
- From Adobe InDesign to EPUB - European Union Publications (youtube)

You may also find these other curated lists of available courses useful.

- Course List - W3C
- Digital Accessibility Training Courses Roundup - DigitalA11Y
- Accessibility courses and certifications - Make Things Accessible
- Training - Accessibility manual (gov.uk)
- Accessibility learning resources - DAISY Learning
- accessibility/a11y-courses (github)

There is some guidance on developing your own training from W3C: Curricula on Web Accessibility: A Framework to Build Your Own Courses - W3C

And professional certifications are available from IAAP: Certifications - International Association of Accessibility Professionals
